

In reference to LPFM broadcasts: Many stations that do not have the ability to broadcast in LPFM but only on FM translators will be "pushed" off the air. One station in particular is KLOVE. This station has literally changed hundreds of thousands of lives! KLOVE has served my community well, it is uplifting, commercial free, always positive and operates on sound moral principles.

If KLOVE were to be displaced by LPFM broadcastors it would be a travesty. Yet another example of Christian broadcasting programs being pushed off the airwaves to be replaced by more trash filled broadcasting and advertising. Communitys need stations like this to create a balance of opportunity to listeners who choose not to pay for satellite radio and who dont like to listen to the moral degradation being broadcast on many stations such as 101KGB-FM.

KLOVE services the community, has testimonies of changed lives, drug free living and even preventions of suicide. This type of radio broadcaster literally makes a difference in peoples lives. I oppose LPFM expanded broadcasting when it affects fine stations such as KLOVE. I AM AGAINST EXPANDING LPFM SERVICE taking priority over current FM translator service.

Thanks for listening.  
Bruce Kennedy
